**COILED HOSES**

**Nylon Air Hose**
This lightweight, permanently-coiled hose is manufactured from tough, abrasion-resistant Nylon 12 and designed to withstand temperatures between -60°F and +200°F.

**AVAILABLE IN:**
- Yellow (Y)
- Blue (B) *In select sizes

**STOWAWAY™ Heavy Duty Nylon Air Hose**
Stowaway Hose is designed with extra heavy wall thickness to meet the requirements of the most demanding applications. Heavy walls provide additional protection against oil, grease, gasoline and abrasion as well as increased working pressure, making this hose a good choice for construction sites, cement plants, mining operations, heavy duty tools and other harsh environments.

**AVAILABLE IN:**
- Blue (B)

**Twin Bonded Nylon Air Hose**
Twin Bonded Self-Storing Hose provides an efficient way to service applications that require air and fluid transport or air and an exhaust return. The intermittent bond allows fittings to be installed without damaging the individual tubes. One yellow tube and one natural colored tube simplify tube identification.

- Made in USA
- Tough, durable, lightweight
- Excellent retraction force

**Heavy Duty Brass Fittings**
Available in rigid or swivel male thread with spring strain relief

**Swivel fittings have a pre-applied thread sealant**

**FLEXCOIL® Polyurethane Air Hose**

FLEXCOIL is the finest polyurethane air hose on the market today and eliminates the two most common limitations of other self-storing air hoses: kinking and abrasion. This lightweight, yet extremely durable hose will withstand the rigors of tough industrial environments while maintaining its resiliency over a long period of time.

FLEXCOIL is ideal for applications such as aerospace manufacturers, assembly stations, air rachets, auto repair, automotive assembly, boat building, car lube shops, car wash systems, impact wrenches, machine shops, mobile equipment, nailing and stapling, robotics, textile plants, tire shops, vacuum pickup tools, water purification and water washdown systems.

**AVAILABLE IN:**
- Dark Blue (B)
- Red (R)
- Yellow (Y)
- Neon Green (G)
- Transparent Blue (T)

**FLEXEEL® Polyurethane Reinforced Coiled Air Hose**

FLEXEEL is the original Reinforced Polyurethane self-storing hose. This extremely lightweight hose is extruded with an inner braid for additional strength, and this “integral piece” process eliminates the need of bonding individual layers of tubing, braiding and cover which tend to separate over time due to bending, flexing and pulsating. FLEXEEL combines the durability of bulkier hoses with the kink resistance and elasticity of polyurethane to make a tough, long-lasting hose that is user friendly.

**AVAILABLE IN:**
- Transparent Red (TR)
- Transparent Yellow (TY)
- Transparent Blue (T)

**Made in USA**

**Tough, durable, lightweight**

**Excellent flexibility**

Available in a Variety of Assemblies

TRUE REUSABLE STRAIN RELIEF
Prevents hose from kinking at all angles

REUSABLE BRASS FITTINGS
Available in rigid and swivel male thread

QUICK DISCONNECTS
“Ready-to-use” hose assembly
