

What is even better than FLEXEEL[®], the best selling, most often demanded brand of reinforced polyurethane air hose on the market?

FLEXEEL^{max}[™]

FLEXEEL^{max}[™] continues the tradition of the most lightweight, most durable, and most flexible reinforced polyurethane air hose available.

FLEXEEL^{max}[™] will still stay ultra-flexible down to temperatures as low as -40°F, and maintain durability up to 165°F! FLEXEEL^{max}[™] comes to the market with many additional features not found with FLEXEEL[®], and certainly more than with any other brand!

- Retains its flexibility in sub-zero conditions
- More abrasion-resistant than PVC & rubber hoses
- Comes standard with reusable strain reliefs; no repair kit necessary

SPECIFICATIONS

- Hose material: Ether-based polyurethane
- Temperature range: -40° F to +165° F
- Working pressure: 300 PSI at 70° F
- Excellent abrasion resistance
- Excellent resistance to oil & greases

FLEXEEL^{max}[™] comes in a HI-VIZ Eel Green[™] color making it easier to see, even in low-light conditions.

FLEXEEL^{max}[™] comes with a higher pressure rating of 300 PSI. This higher pressure rating means even more strength and durability!

FLEXEEL^{max}[™] includes the Eel Strap[™] already assembled on the hose, making it easier to coil, store and carry after use.

FLEXEEL^{max}[™] comes assembled complete with a field-repairable reusable fitting and a 1/4" Ball Swivel Coupler[™], either in industrial or automotive interchange. This ball swivel increases maneuverability at the tool and improves ergonomics.

FLEXEEL^{max}[™] comes assembled complete with a field-repairable reusable fitting and our new Air Safety Plug[™], a connector which prevents dangerous "hose whip" by quickly bleeding off pressure from the hose in a controlled fashion, rather than in a dangerous sudden burst!
