

# CANNON COMPONENTS

## Trigger Kit

Each kit contains: Trigger Assembly Pin, "O" Rings, Bushing, Hex Screws, 1/8" Allen Wrench & Instructions

**9100-T**

## Service Kit

Parts to replace the internals of the Cannon that are occasionally worn from the introduction of foreign objects and debris

**9000-CSK**

## Standard Safety Nozzle

Attach to Coilhose Cannon body via 1 1/4" female pipe thread/target a smaller or specific area efficiently

**9400**

## Multi-Jet Nozzle

Attach to Coilhose Cannon body via 1 1/4" female pipe thread/target a larger area efficiently

**9700**

## Extension Coupling

1 1/4" Female pipe thread on either side / for joining together any two extension pieces with male threads

**9600**

## 2" Extension

2 inch extension with male pipe threads/connects into body and nozzle or customize with 9600 coupling

**9200-EXT02**

## 24" Extension

24 inch extension with male pipe threads/connects into body and nozzle or customize with 9600 coupling

**9200-EXT24**

## 48" Extension

48 inch extension with male pipe threads/connects into body and nozzle or customize with 9600 coupling

**9200-EXT48**

## Grip Handle

Handle provides additional grip for guns with short extensions/screws into body/ left-right reversible

**9100-14**

## Inlet Adapter

Adapts the Cannons 3/4" MPT to 3/4" BSPP Female

**9100-ADP-34P**

# COILHOSE CANNON®

*The Cannon Extreme High Volume Air Blow Gun uses the compressed air from your tow-behind compressor to clear heavy, stubborn debris. Blowing with the Cannon is faster than sweeping, and is safer than using a pipe and ball valve. The Cannon makes even big-job clean-ups quick and easy!*

## Cannon with Safety Nozzle

This specially engineered nozzle delivers a concentrated force to a **SMALLER** specific area efficiently.

**Application:** Anyone with an ample air supply (tow-behind compressor for mobile applications or large capacity compressor found in plants) and has a need to move heavy/stubborn debris. Geared for, but not limited to outdoor use.

**Operation/performance:** Air consumption equals 135 CFM at 100 PSI.

MODEL NUMBER	ITEM DESCRIPTION
9000-S	2" Extension Model
9000-24S	24" Extension Model
9000-48S	48" Extension Model

## Cannon with Multi-Jet Nozzle

The Multi-Jet nozzle delivers air using the coanda effect, generating a large amount of volume and thrust over a **LARGER** targeted area efficiently.

**Application:** Anyone with an ample air supply (tow-behind compressor for mobile applications or large capacity compressor found in plants) and has a need to move heavy/stubborn debris. Also suitable for drying, or cleaning several small orifices or indentations rapidly. Geared for, but not limited to indoor use.

**Operation/performance:**

Air consumption equals 120 CFM at 100 PSI.

MODEL NUMBER	ITEM DESCRIPTION
9000-MJ	2" Extension Model
9000-24MJ	24" Extension Model
9000-48MJ	48" Extension Model

**CAUTION:** ALTHOUGH COILHOSE PNEUMATICS SAFETY BLOW GUNS MEET OSHA REQUIREMENTS, WE STRONGLY RECOMMEND USING OF APPROVED SAFETY GOGGLES & EXERCISING EXTREME CAUTION WHEN USING ANY BLOW GUN.

- Clears surfaces of dust and debris; cleans and dries heavy equipment quickly and safely
- Blows away large debris and rubble rapidly and efficiently
- Uses compressed air from tow-behind compressors, common on job sites

## MATERIAL & SPECIFICATIONS

**BODY:** Die cast aluminum, machined brass, and stainless steel

**IN PORT:** 3/4" NPT female thread

**TIP:** Wear-points constructed of heat-treated and zinc-plated steel

**RECOMMENDED INLET PRESSURE:** At least 90 PSI and a hose I.D. of at least 1/2"

## Extreme Ease Trigger™

Specialized power-assisted trigger requires minimal force to actuate.
