

## Garden Flexeel Slender-Profile Hose

Coilhose's Garden Flexeel polyurethane hose is incredibly lightweight and highly durable. The hose has a slender profile for compact storage, and remains flexible even in very low temperatures. It is suitable for use in moderate-flow applications such as garden or greenhouse watering and light-duty washdown. So maneuverable it will quickly become a favorite hose for most tasks, and so durable it may be the last hose you'll ever own!

Garden Flexeel is approximately 1/2-inch diameter OD, and comes complete with reusable plated brass 3/4-inch garden hose fittings. Available in 25 and 50-foot lengths. Made in the USA.

Reusable plated-brass 3/4-inch garden hose fittings with durable bend restrictors.
